

## CAUTION: Do Not Move or Tamper with USAccess HSPD-12 Credentialing Equipment

The USAccess credentialing equipment belongs to the GSA USAccess program. Due to the secure nature of the information collected and transmitted, we must ensure these certified systems remain intact. For this reason you may not move or tamper with the equipment without prior approval. This includes physically moving the equipment to a different location within the room, building, or unplugging/plugging cables into another network outlet.

Please contact the USDA LincPass deployment team should any changes with equipment configuration be necessary. Failure to do so may result in the hosting agency being liable for any associated charges incurred from GSA.
